

FOR IMMEDIATE RELEASE

GAREL FINE ART Presents: “Tapestry of Form”: A Dual Narrative

Opening Reception: Saturday | October 12, 2024 | 3 PM - 7 PM | Artist Talk - 5 pm

Exhibition Dates: OCTOBER 12 – NOVEMBER 2

Location: 1069 N. Aviation Boulevard. Manhattan Beach, CA 90266

Manhattan Beach, CA — September 26, 2024 — Garel Fine Art is excited to announce its upcoming exhibition, **“Tapestry of Form,”** showcasing the dynamic collaboration between two visionary artists: Allison Nil, renowned for her evocative oil paintings and sculptural works, and Cathy, celebrated for her intricately handcrafted quilts. This exhibition will open on October 12 and run through November 2.

“Tapestry of Form” invites viewers to explore the harmonious dialogue between paint and fabric, structure and softness, inviting a new understanding of artistic expression. Allison Nil’s bold brush strokes and dimensional forms will intertwine with Cathy’s meticulous quilting techniques, creating a sensory experience that transcends traditional boundaries. Together, they challenge perceptions of materiality and form, weaving a narrative that celebrates both individuality and collaboration.

The exhibition features a series of original works, including large-scale oil paintings that engage the viewer through vivid color and intricate textures, alongside a collection of handmade quilts that transform the concept of textile art into an exploration of emotional and physical space. Each piece tells a story, inviting the audience to reflect on their own connections to art, memory, and craftsmanship.

Join us for the opening reception on Saturday | October 12 where guests will have the opportunity to meet both artists, learn about their creative processes, and experience the captivating interplay between these two distinct mediums.

In addition to the exhibit and to celebrate Filipino History Month, Garel Fine Art will also present a one day film screening event of art films by Filipino film makers, curated by Sundance programmer Irene Soriano

“Art is a conversation, and this exhibition beautifully illustrates how diverse approaches can come together to create something extraordinary,” said Joanna Garel, Director of Garel Fine Art. “We hope visitors will leave feeling inspired and enriched by the connections forged through the artists’ works.”
